

MATERIAL SAFETY DATA SHEET PET-G Standard

Made on: 11/12/2018

Updated on:

SECTION 1: Product and Company identyfication

1.1 Product identification

Product Name: Trade Name: PETG Standard Filament FILAMENT 3D PETG Standard 1,75mm FILAMENT 3D PETG Standard 2,85mm

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses:

Thermal processing of 3D printing

1.3 Details of the supplier of the safety data sheet

Supplier:	Przedsiębiorstwo Handlowo-Produkcyjne "Rosa" Alicja Sakowicz-Soldatke 05-074 Halinów- Hipolitów, Polska ul. Hipolitowska 102 Tel.: +48 783 62 62
e-mail address person responsible for this SDS:	r.zbikowski.rosaplast.pl
Telephone numer:	(+48)882-952-165

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

The substance is not classified as dangerous according to Regulation (EC) No 1272/2008 (CLP/GHS) and Directive 67/548/EEC.

2.2 Label elements

Markings according to EC guidelines: According to the method of calculating the " General Classification Guideline for the Production of the EC " in the latest valid version, the product does not require labeling.

The normal safety measures for handling chemicals should be observed.

2.3 Other hazards

The hazards of this product are associated mainly with its processing. Molten polymer will produce thermal burns. Polymer dust may represent a fire hazard at sufficient concentrations in presence of ignition sources.

SECTION 3: Composition/information on ingredients

PETG (Copoliester) - > 99% CAS 26780-49-4

Pigment - < 1%

SECTION 4: First aid measures

Eye contact: Rinse immediately with plenty of water, also under the eyelids, for atleast 15 minutes Call a physician immediately

Skin contact: Rinse immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician Cool skin rapidly with cold water after contact with hot product. Do not peel filament from the skin. Consult a physician

Inhalation: Move to fresh air. Call a physician immediately

Ingestion: Drink water as a precaution. Never give anything by mouth to an unconscious person Do not induce vomiting without medical advice Call a physician immediately

Notes to physician: Treat symptomatically

SECTION 5: Firefighting measures

Suitable extinguishing media: Foam, Water, Carbon dioxide (CO2), Dry chemical.

Unsuitable extinguishing media None

Special protective equipment for firefighters: As in any fire, wear self-contained breathing apparatus, and full protective gear

Under fire conditions: Risks of ignition (followed by flame propagation or secondary explosions) shall be prevented by avoiding accumulation of dust, e.g. on floors and ledges.

SECTION 6: Accidental release measures

Personal precautions: See Section 8. Keep away from sources of ignition. Avoid dust formation. Avoid contact with skin and eyes.

Environmental precautions: Do not flush into surface and ground and ground water or sanitary sewer system.

Methods for cleaning up: Shovel into suitable container for disposal.

SECTION 7: Handling and storage

Safe handling advice: Avoid contact with skin and eyes. Employees should be protected from the possibility of contact with the molten filament during printing. Use personal protective equipment if necessary. In the process of printing, gases and vapors may be generated which may irritate the respiratory system, eyes and skin. It should be processed in a well-ventilated room.

Storage: Store in a cool place. Protect from sunlight. Store in a dry place.

Precautions: No special precautions required.

SECTION 8: Exposure controls/personal protection

Exposure Control:

Engineering measures: Where possible, local exhaust ventilation and good general room ventilation should be used. Provide adequate exhaust ventilation in places of dust formation. **Exposure limits:** None established. This material can generate Particulates Not Otherwise Classifiable (PNOC).

General safety and hygiene:

- Keep away from foodstuffs, beverages, and food.
- Do not eat, drink, smoke..
- Do not breathe dust / smoke.
- Avoid contact with eyes and skin.
- Wash hands before breaks and after work.

Breathing equipment:

• It is not required under normal conditions of use. In the case of loose dust / fumes use a breathing apparatus. **Protection of hands:**

• To operate a hot product, heat resistant gloves.

- Eye protection:
- Protection glasses

Body protection:

• For transport, hot, molten product - heat-resistant protective clothing.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance Odour
рН
Boiling Point
Flash point
Evaporation rate
Flammability
Vapour pressure
Vapour density
Relative density
Solubility(ies)

Wire Slight Not applicable Not available Not applicable Not applicable Non-flammable Not available ≥1,27 g.cm3 Insoluble in water

SECTION 10: Stability and reactivity

Reactivity No specific test data related to reactivity available for this product or its ingredients. **Chemical stability** The product is stable.

Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur. **Conditions to avoid** No specific data.

Incompatible materials Acetic Anhydride, acetone, aniline, benzene, chloroform, chromic acid, cyclohexanone, dimethylformamide, dioxane, ethyl acetate, phenol, tetrahydrofuran. Reactive with strong oxidizing agents, as well as strong acids and caustic will decompose polyester.

Hazardous decomposition products Carbon monoxide, carbon dioxide, acetaldehyde.

SECTION 11: Toxicological information

Information on the likelyroutes of exposure

Inhalation Combustion products may be irritant; High concentration of dust may be irritant to the respiratory tract. **Ingestion** Expected to be a low ingestion hazard.

Skin contact May cause physical abrasion in contact with skin. Molten polymer will adhere to the skin causing deep thermal burns.

Eye contact May cause physical abrasion in contact with eyes.

Information on toxicological effects

Potential acute health effects

Inhalation	No known significant effects or critical hazards.
Ingestion	No known significant effects or critical hazards.
Skin contact	No known significant effects or critical hazards.
Eye contact	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation	No specific data.
Ingestion	No specific data.
Skin contact	No specific data.
Eye contact	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects	Not available.
Potential delayed effects	Not available.
Long term exposure	
Potential immediate effects	Not available.
Potential delayed effects	Not available.
General	No known significant effects or critical hazards.
Carcinogenicity	No known significant effects or critical hazards.
Mutagenicity	No known significant effects or critical hazards.
Teratogenicity	No known significant effects or critical hazards.
Fertility effects	No known significant effects or critical hazards.

SECTION 12: Ecological information

Toxicity	Not available.
Persistence and degradability	Not available.
Bioaccumulative potential Mobility in soil	Not available.
Soil/water partition coefficient (KOC) Mobility	Insoluble in water Not available.
Results of PBT and vPvB assessment	
PBT	Not available.
vPvB	Not available.
Other adverse effects	No known significant effects or critical hazards.

SECTION 13: Disposal considerations

Przedsiębiorstwo Handlowo-Produkcyjne "Rosa" Alicja Sakowicz-Soldatke ul. Hipolitowska 102, 05-074 Halinów- Hipolitów,

tel.: +48 22 783 62 62, www.rosa3d.pl

Waste treatment methods

Product

Methods of disposal Like most thermoplastics, the product can be recycled. Can be landfilled or incinerated, when in compliance with local regulations.

Hazardous waste Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

Packaging

Methods of disposal The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. **Special precautions** This material and its container must be disposed of in a safe way.

SECTION 14: Transport information

The substance is not subject to transport regulations on hazardous goods included in ADR (road transport), RID (rail transport), IMDG (marine transport) and ICAO/IATA (air transport).

SECTION 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV

List of Substances of Very High Concern for Authorization: None of the components are listed.

Annex XVII

Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles: None of the components are listed.

Chemical Safety Assessment: Not available

SECTION 16: Other information

The information contained in this safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information provided is only intended as a guide to safe handling, use, processing, storage, transport, disposal and release, and no warranty or quality specification should be taken into account. The information applies only to a specific material and may not be relevant for such material used in combination with other materials or other processes, unless otherwise specified in the text. Although some hazards are described in this document, we can not guarantee that these are the only hazards that exist.

COMPLIANCE WITH EUROPEAN UNION REGULATIONS FOR FOOD CONTACT PLASTICS

1.We confirm that this product fulfils the requirements on plastic materials used for articles or component of articles intended to come into contact with food as described in the following European legislation:

- European Regulation (EC) No 1935/2004
- Commission Regulation (EU) No 10/2011 (and amendments)
- Good Manufacturing Practice (GMP) Regulation (EC) No 2023/2006

2. Monomer(s) and/or additive(s) are listed in the positive list of regulation (EU) N°10/2011 (and amendments);

Monomer	PM Ref.	Specific Migration Limit(s) (mg/Kg):
Terephthalic acid	24910	7,5 expressed as terephthalic acid
Ethyleneglycol	16990	30 expressed as ethyleneglycol
	53650	So expressed as ethylenegiycol
2.2 dimethyl 1.2 propagadial	16390	0.05
2,2-dimethyl-1,3-propanediol	22437	0,05

3. The overall and specific migration tests carried out under recommended conditions (10 days/40°C) and (10 days / 40°C) respectively, using the food stimulants Ethanol 50% (D1), Acetic acid 3% (B) and Vegetable oil (D2), show that the polymer meet the migration limits required by EU legislation.

4. Dual use additives

We declares the use of a "dual-use" additive, which is phosphoric acid (Ref. 23170 and 72640), who do not have a food contact SML.

5. we cannot assure that the final articles made with its materila will be in compliance with the ongoing European Regulation in terms of global and specific migration limits, since it is unaware of the subsequent processing treatment such a polymer will be subjected to before its final use.
